1. The following is an examiner's statement of reasons for allowance: Reich et al. and JP 7-292053 are representative of the closest prior art found by the examiner. JP 7-292053 does not disclose attaching lanolin to the surface of the particles of polyurethane. Reich discloses the use of lanolin alcohol, which falls within the scope of the instantly claimed lanolin derivative, in the polyurethane but it would require much picking and choosing to use lanolin alcohol in the composition of the patentee and the patentee does not disclose attaching the lanolin to the surface of the polyurethane particles so that it is not washed off, as is required by the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick D. Niland whose telephone number is 571-272-1121. The examiner can normally be reached on Monday to Friday from 10am to 5pm.
